Coming off the ramp to hang left onto WR, she was in the middle lane then abruptly cut over into left turn lane. I had to hit breaks hard to avoid hitting her then. During turn, she went into the right lane and I turned into left lane. She appeared to be slowing down. Then I noticed her wanting to make a U-turn on WR. She started turning towards the van. I attempted to get out of the way but she kept coming and hit the front panel which bumped us into the left turn lane of oncoming traffic. We then pulled van over to the right lane of WR.
